SUMMARY

I am a Full-Stack Web Developer with over 2 years of experience in creating, maintaining, and optimizing websites and web applications based on WordPress, WooCommerce, and Laravel.

Proficient in PHP 7/8 (OOP), MySQL, HTML5, CSS3, and JavaScript, I also have experience in delivering projects according to client requirements, with attention to code quality, RWD (Responsive Web Design), and UX design.

My skills include working with Git, Docker, and Composer, as well as performance and SEO optimization. Currently, I am focusing on the development of modern backend and full-stack applications using PHP, SQL, and JavaScript. I have basic knowledge of unit testing and process automation and I am eager to continue developing these skills to create even better applications.

EXPERIENCE

KaroCreative

Founder & WordPress Full-Stack Web Developer • 01/2022 - Present

- Creating and developing web applications and websites (PHP, Laravel, MySQL, WordPress, JavaScript, Tailwind CSS).
